SHERBET & SORBET

A **Sherbet** is a frozen dairy dessert. Sugar content is much higher than ice cream (up to 50%) and it is at least twice as acidic. The product is therefore much sweeter and tarter than ice cream. Standards of identity include total milk solids of 5% and 2% maximum milk fat solids. Fruit juice will be 2% minimum as citrus, 6% minimum as berry, and 10% minimum as other flavors. Overrun will be no more than 50%.

Neutral Sherbet

#10 can **Neutral Sherbet Base** (# 840)
10 lbs of sugar
4.5 gallons of warm water
1.5 gallons of ice cream mix
6 oz **Citric Acid** (# 532)

A **Sorbet** is a non-dairy frozen dessert. Typically considered a high quality dessert treat, it consists of the same ingredients as sherbet excluding the dairy product. Our #40678 Neutral Sorbet Base is designed to create a soft, creamy finished product every time and can be dipped at the same temperature as ice cream.

WATER ICES – ITALIAN ICES - SORBETTO

Typically served in warmer temperatures, this is a non-dairy frozen treat. As opposed to sorbet, water ices do not normally include fruit juices and may not even include stabilizers. Production time is approximately 18-20 minutes. Water ices are not usually placed in a flash freezer prior to dipping but are placed directly into the dipping cabinet at a temperature of 15°F.

Lemon Ice

1 pouch **Neutral Sorbet Base** (# 40678)
2 gallons, 16 oz of warm water
4 lbs of sugar

1 quart of orange juice concentrate

SHERBET, SORBET, AND WATER ICE HANDLING

Take these simple steps to ensure a high quality product, batch after batch:

- *Mix all of your ingredients together thoroughly.
- *When flavoring using real fruit, add purees at 15-20% of your formula.
- *Sherbets - place product in your cooler and let marinade for a minimum of 4 hours - no less. Overnight is always best.
- *Sorbets - products should not be flash frozen overnight.
- *Water Ices - can go straight to dipping cabinet after running through your machine.
