

3 Simple Ways To Prevent Getting Sick

1

Watch your hands and be mindful of touching your eyes, nose, and mouth after touching high-traffic surfaces like door handles and other public surfaces.

2

Practice hand hygiene throughout the day by frequently and thoroughly washing your hands for at least 15 seconds and using hand sanitizer when needed.

3

Sanitize surfaces with sanitizing wipes or other cleaners to disinfect high-traffic and frequently touched surfaces, such as desks, gym equipment, and table/countertops.

Create a healthy environment for your staff & guests and reduce absenteeism with a proper hand care system. Learn how at www.regdist.com/FeaturedProducts.
