Easy and Quick to Clean

Camshelving is the revolutionary shelving system that makes storage easy in any environment, wet or dry.

Camshelving is the most hygienic shelving system in the market and the easiest to clean and adjust.

Smooth polypropylene shelves simply wipe clean and each component is dishwasher safe.

Unquestionably Strong, Durable and Stable

Posts and traverses, the weight bearing components, are made of a steel core with a thick polypropylene exterior. This makes Camshelving strong, durable and easy to clean.

Easy to Adjust and Configure

The Camshelving system is based on four easy to use, easy to assemble parts. Each part is available in a variety of sizes to allow the flexibility to custom build shelving in any configuration or to fit in any size area.

Rust-Free

Camshelving is backed with a lifetime limited warranty against rust and corrosion for traverses and stationary posts.

It is ideal for walk-in refrigerators and freezers because it with-stands temperatures as cold as -38°C. It's weldless and rustproof, so Camshelving can be used in wet areas.

Easy and Quick to Clean

For a Sanitary Storage Area

CAMGUARD
ANTIMICROBIAL SHELF PLATES

- Shelf plates are easy to remove and run through the dishwasher.
- Smooth polypropylene surface quickly wipes clean.
- Spills clean quickly and easily, reducing the risk of cross-contamination.
- Camshelving is weldless, so liquids and dirt cannot get inside crevices.

- Camguard® is a silver-ion technology that inhibits the growth of mold, fungus and bacteria.
- All shelf plates are embedded with Camguard antimicrobial so it will not scrape off, wash off or wear out.
- Camguard works continuously to suppress the growth of microbes between cleanings.
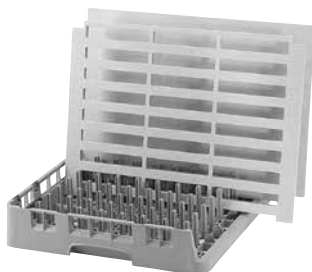

Shelf plates can be easily removed, washed individually or placed in an open end Camrack® OETR314 and washed in a commercial dishwasher.

Easy to Assemble and Adjust

Build Any Configuration And Fit Any Size Area

- Create a space efficient layout for any area.
- Assembles in minutes, requiring only the use of a mallet.
- Shelves can be adjusted in 100 mm increments without disassembling the entire unit.
- Two units can be connected together with shelves at alternating heights for maximum storage flexibility.
- Corner Connectors attach units to create a 90° angle or U shape.

POST HEIGHT	DOVETAIL INCREMENT	NUMBER OF POSITIONS PER POST
Stationary		
1400 mm	100 mm	12
1500 mm	100 mm	13
1600 mm	100 mm	14
1700 mm	100 mm	15
1800 mm	100 mm	16
Mobile		
990 mm	100 mm	7
1490 mm	100 mm	12
1590 mm	100 mm	13
1690 mm	100 mm	14
1790 mm	100 mm	15

EASY TO ASSEMBLE!

Traverse slides easily down onto dovetail.
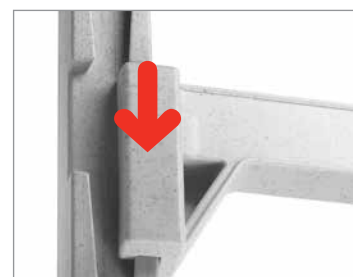

Unquestionably Strong and Durable

- Posts and traverses, the weight bearing components, are constructed with a steel core and encapsulated by a thick polypropylene outer layer.

- Inner steel core ensures that Camshelving is strong, durable and stable.

- Thick, polypropylene outer layer will not chip, break or corrode.

- Post connectors provide exceptional cross stabilization.

* Corner Connectors are recommended for use on traverses 1200 mm or less.

** Dunnage Stands are used only on the bottom shelf. Recommended for traverses 1400 mm or longer.

✛ Due to the weight bearing capacity of casters, maximum weight load on an entire Mobile Camshelving Unit is 340 Kg.

Rust Free

For Use in Any Area, Wet or Dry

- Camshelving is weldless with no exposed metal, so it remains rust free.

- Safe to -38°C, making Camshelving the ideal shelving system for freezers, walk-ins or any wet or humid environment.

- Not even salt water or sea air will corrode Camshelving.

CAMGUARD
ANTIMICROBIAL SHELF PLATES

Camshelving shelf plates contain Camguard® antimicrobial, a silver-ion technology that inhibits the growth of mold, fungus and bacteria that may cause odors, stains and product degradation. Camguard fights the growth of such microbes between regular cleanings. Camguard alone will not protect against disease causing bacteria.

Camshelving is covered by EU Patent #0686817.

Components

Camshelving® is a modular system that allows the flexibility to assemble shelving to fit any size area. The key components, including posts, post connectors, traverses and shelf plates, are available in a variety of sizes. They can be easily configured to custom build shelving to maximize storage space. Unique design elements such as shared posts and corner connectors simplify assembly and increase storage capacity.
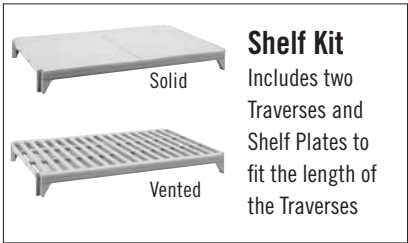

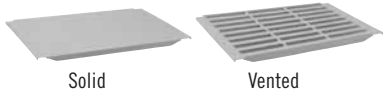

Post Connectors

Post connectors hold two posts together and define the width of the unit.

They are made of polypropylene and provide excellent cross stabilization.

Top

Bottom

Traverses

Traverses have a steel core with a polypropylene exterior to provide strength and durability.

Traverses connect to the post by sliding on to the dovetail on the post.

Two traverses are needed to build one shelf, and they define the length of the unit.

Post Kit
Includes two Posts and a set of one top and one bottom Post Connector

Shelf Plates

Shelf Plates are made of polypropylene.
Dishwasher safe.

Posts for Mobile Camshelving

Mobile Camshelving posts must be used to build mobile Camshelving units.

Post for Mobile Unit

Mobile Unit
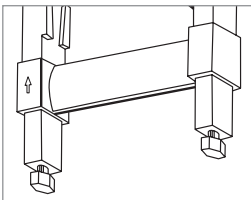

Posts For Stationary Unit

Posts have a steel core with a polypropylene exterior to provide strength and durability.

Posts define the height of the shelving unit and are measured with the leveling foot fully engaged.

Post for Stationary Unit

Stationary Unit

Casters

Available in standard for dry storage or premium for freezers, cold, or wet applications.
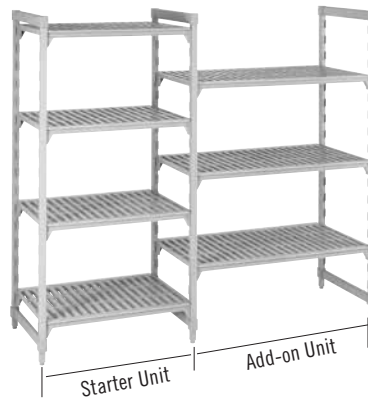

Maximize Space Utilization

Camshelving® is available in starter and add-on units for ease of ordering and assembly.

Starter Units

- Available in stationary or mobile units.

- Starter units ship complete with two post kits, traverses and shelf plates to build an entire unit.

Starter Unit

Starter Unit — Add-on Unit

Add-On Units

- Add-On units ship complete with one post kit, traverses and shelf plates to attach to an adjoining unit.

- The traverses on both the first and second unit share the middle post.

- No add-on clips or S-hooks required.

- There is no loss of weight bearing capacity when built in a straight line.

Starter Unit
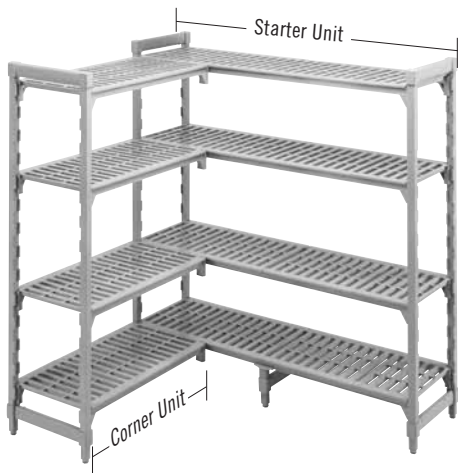

Corner Unit

Corner Unit & U Shape Units

- Corner connectors can be used to build corner units and U Shape units.

- Traverses snap onto corner connectors just like they snap onto the dovetails of the posts.

Corner Connector Set

- Attaches a basic unit to a second unit at a 90˚ angle or to form a U shape.

- A set of corner connectors are needed for each shelf.

Shelves

Basic Unit

Basic Unit

* Corner connectors are recommended for use on traverses equal to or shorter than 1200 mm, and covered by U.S. Patent D498,664S.

Dunnage Stand

- Increases weight bearing capacity to 454 Kg on the bottom shelf.

- Recommended for units 1400 mm or longer.
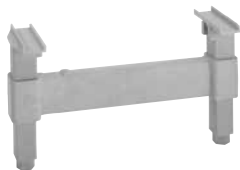

* Dunnage stands are covered by U.S. Patent US 6,981,454B2.

Fence System

- Prevents stored items from falling off shelving units.

- Ideal for mobile shelving.
Mobile Units

- Mobile Camshelving units are built by using posts for mobile carts and inserting casters.

- Mobile units are not designed to serve as transport carts.

- Casters sold separately.

Mobile unit shown with optional fencing.

Seismic Foot

- Bolts a post to the floor for a more stable base.

- Screws not included.

Wall Fastener

- Fastens a unit to a wall as a safety precaution.

- Screws not included.

Identification Tag

- Easily clips onto traverses to identify stored items.

- Made of PVC.

- Includes 12 HACCP labels.

Poultry

Donut Bumper

- Protects mobile Camshelving.

- 90 mm Bumper.
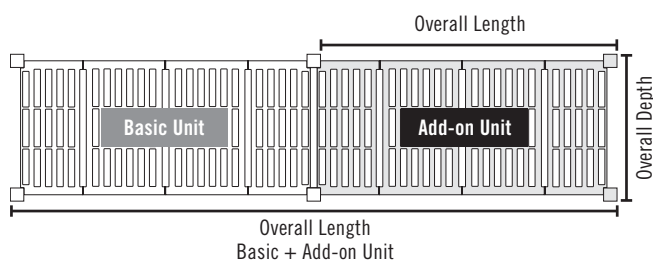

Camshelving® Footprint Dimensions

- The following charts are provided to assist in developing a footprint for your storage area.
- They can also be used to help determine your actual shelf space.

- Traverse measurements are based on outside, or overall unit length.
- This includes the posts.

- The overall length varies slightly when using a basic unit, add-on unit, intermediate unit or corner unit.
- These variations are outlined below.

Total Locking Caster (MSCTL)

- Swivel and brake for use on Mobile Carts.
- Has a brake that stops motion and locks the swivel when engaged.

Camshelving® Wall Shelves and Storesafe® Shelf Extenders

Wall Shelves

- Expand storage space in kitchens, above work stations and sinks.
- Features virtually indestructible I-beam supports that hold up to 68 Kg per shelf.
- Durable polypropylene withstands temperatures up to 88˚C, and will not rust or corrode.
- Snap fit rail design allows shelves to snap on and off for easy cleaning.
- 5 cm backsplash and marine front edge controls spills and cross contamination.

Shelf Extenders

- Convert empty wall space into a functional storage area.
- Use with or without Camshelving Wall Shelves.
- Peg strips withstand temperatures up to 88˚C, and will not rust or corrode.

Wall Shelf Color: Speckled Grey (480).

Extender Peg Strip Color: Black (110).

Wall Shelf Kits are covered by the following U.S. Patents D 508,646S & D 512,867 S.

Divider Bar for Camshelving®

- Creates a custom storage unit that can accommodate a variety of storage products and sizes on a single Camshelving and Camshelving Elements Series unit.

- Angled and straight designs hold food pans and boxes straight or on an angle for more ergonomic reach.

- Divider bars fit on 600 mm wide Camshelving units and hold up to 91 Kg per shelf.

- Divider bars feature a raised bar on the front edge to keep racks and pans from sliding off the front of the unit.

Divider bars can accommodate any size food pans from GN 1/1 to GN 1/9.

30,5 cm x 46 cm food boxes with sliding lids can be used with divider bars for hygienic food storage.

CODE	DESCRIPTION	CASE KG (CUBE M³)
CSDBA	Divider Bar Angled	0,904 (0,003)
CSDBS	Divider Bar Straight	0,904 (0,003)

Case Pack: 4   **Color:** Speckled Grey (480).

Camracks® fit on divider bars to create a warewashing drying and storage station.

Tray Slide Rack For Camshelving®

- Holds six 46 x 66 cm sheet pans.

- Made from Aluminum which is safe for use in coolers and freezers.

- Fits on Camshelving units 600 mm wide and 600 mm in length or longer.

Camshelving®
High Density Storage System

High Density Camshelving maximizes storage capacity by eliminating aisles and utilizing all available space. Ideal for operations with limited space or that need to use their space more effectively. Floor track system provides safe and easy access to stored product. Heavy weight loads roll securely on raised floor track.

NSF®
COMPONENTS

StoreSafe

Increases Storage Capacity up to

40%
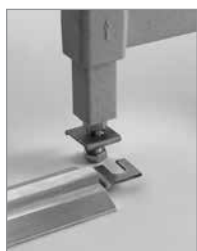

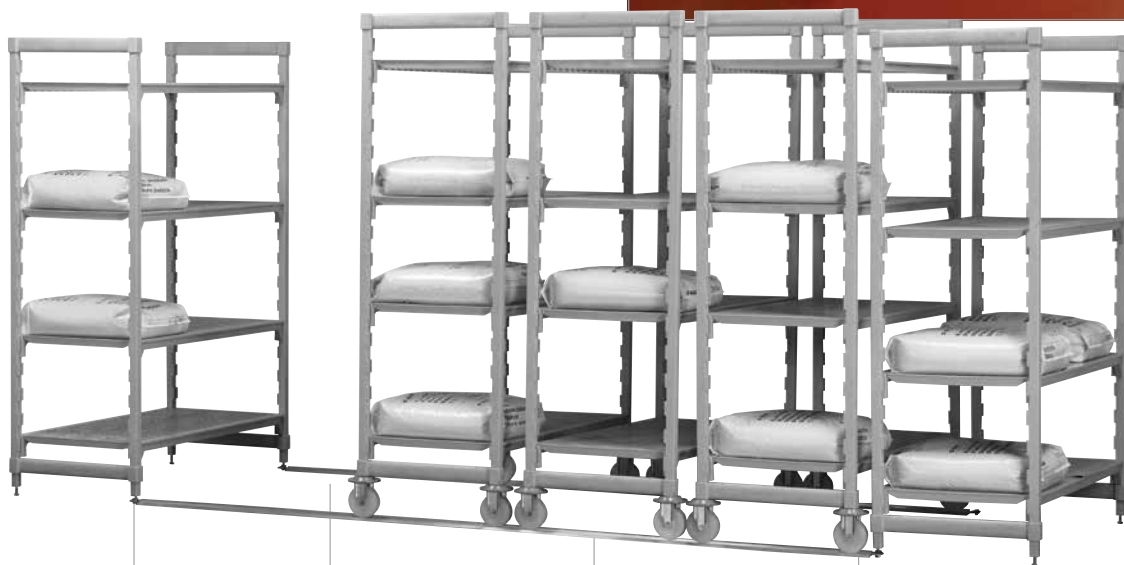

Easy Glide Floor Tracks

The track simply connects to the bottom of the Stationary Camshelving Unit. No bolts or drilling into the floor is required.

Ergonomic Access to Stored Product

Active aisle of 76,2 – 91,44 cm provides easy access to all stored product.

Low profile sloped rail design ensures easy access to product using the active aisle.

Raised Track

Raised track provides a smooth and level surface to easily roll mobile units. It ensures dirt will not get trapped, and is easy to clean.

Mobile Units with heavy weight loads roll smoothly on track.

Roll Easily And Securely

Grooved casters roll easily and securely on raised track.

Can be used on any surface, including tile and choppy floors.

Easy to Clean

- Camshelving is the most hygienic high density storage system available.
- Raised track ensures dirt will not get trapped, and is easy to clean.
- Aluminum track and stainless steel hardware are rust resistant.
- Shelf plates easily wipe clean or can be removed and run through the dishwasher.

System Components

Easy to Order

- Camshelving stationary units act as the system anchor.

- Mobile units with exclusive high density casters are available with vented or solid shelves.

- Mobile units can be ordered in convenient starter units, or custom built using Camshelving mobile post kits, shelf kits and high density casters.*

- Raised track kits ship with all hardware necessary for installation.

* Refer to pages 8 and 11 for components to build custom size Camshelving units.

Easy to Configure and Assemble

1. Determine your room size and needs. Multiple track kits can be used together to build the desired length of track.**

2. Choose starter unit size. Existing Camshelving stationary units can be retrofitted and utilized as the system anchors.

3. Choose high density mobile units, either starter units or build custom units.

4. Different width stationary and mobile units may be used in a single run of track.

** It is recommended to use a stationary unit for every 4,6 m of track to further stabilize the system.
